**Mission:** Through leadership, we embrace, create and support a workplace and learning culture characterized by sustainable and healthy practices.

**Vision:** The School of Nursing is a community that fosters and upholds environmental stewardship and the health and wellbeing of its students, staff and faculty.

**Goals:**
- Diminish the School of Nursing’s carbon footprint.
- Assure healthy food and beverage choices are available to students and employees.
- Maintain a focus on healthy products and practices in Cooper Hall.
- Create opportunities for students and staff to participate in convenient physical activity.
- Promote availability of restful, meditative space for those who need it.
- Create opportunities for visitors, students and staff to interact with nature, both indoors and out.
- Evaluate the impact of Cooper Hall on the environment and student and employee wellbeing.
- Create strategic partnerships to enhance the School of Nursing’s ability to be a healthy and sustainable environment.

**Working Groups:**
The following working groups within the Health Environment Workgroup are established:
- Carbon Footprint Reduction
- Sustain Dane M Power
- Healthy Food & Beverage
- Physical Activity, Restful Spaces and Interaction with Nature
- Evaluation
*Office conducted a waste audit of all waste bins within the office

Increasing education and awareness about recycling in the office
Proper waste management

*Change printing culture
  Printing everything → increased usage of electronic mediums (iPads)
  Double-sided printing
  Sending a report of usage to each staff member

*Relabeling printed envelopes to be used again
  Reduce, reuse, recycle

*Starting a campaign to turn off all computers before leaving at night

*Place signage near light switches to start behavioral change
  Turning lights off when leaving rooms
Design Innovations

- (LEED) Leadership in Energy and Environmental Design - Silver Certification
  - Building basic features
  - Private office benefits – with occupant control
